in accordance with EN 13501-1:2007 and prEN 15102:2007 + A:2011

Fire Behavior B
 Smoke Production s1
 Flame Droplets d0

NOTES:

- "Roll width" represents the width of the wallcovering that will be received by the customer.
- "Gauge" is the product thickness measured after the first pattern colourway is produced.
- "Nominal pattern width" is the expected width yield from one drop on the wall.
- "Tensile" and "Tear" results are the minimums required by CCC-W-408A federal specifications.

NEON # 67072 - # 67073

These decorative metallic wallcoverings should only be cleaned with mild ingredients such as soap, detergent and water. Stronger, more alkaline household cleaners and/or excessive scrubbing, have the potential to damage the surface of the wallcovering.

1408/13

Product complying with the Marine Equipment Directive (MED)

67069

NEON

Specially for the contract market, Arte combines design, colour and quality in a magisteral way.

The luxurious but extremely durable vinyl wallcovering meets the most stringent technical requirements for this highly demanding market, such as fire resistance, shock resistance and washability.

This is why Arte's contract wallcovering is so widely used in hotels, offices and elderly and nursing homes.
